- Prof. Katell Morin-Allory, Univ. Grenoble Alpes, France
- Dr. Elena-Ioana Vatajelu, CNRS | TIMA Laboratory, France

Vice chairs

Name	Geographical area	Main expertise	Promotional role
Tiziana Margaria	Europe	Formal methods	Women enrolment
Ibrahim Elfadel	Africa, Asia and Far East	Cyber physical systems and IoT	Mentoring for VLSI-SOC organizers
Ricardo Reis	America	Physical design and testing	Networking with IFIP initiatives
Victor Grimblatt	Worldwide	EDA, electronic industry	Industrial liaison

Mapping WG competences (1)

- Goal:
 - To increase the interaction among the members for definition and development of research projects and teaching initiatives,
 - To promote the visibility of the group towards the scientific and industrial communities
- How
 - Mapping members competencies within the scope of the WG 10.5 according to standard taxonomy
 - Then, asking for self description according to the taxonomy
 - Finally, linking personal web pages with main projects

Mapping WG competences (2)

- Why:
 - For being more attractive to industries with web page per each area
 - For identifying new members, according to the missing competences w.r.t. to the group mission and vision
 - For mapping competences w.r.t. the work programme of the international funding calls to promote the creation of consortiums for applications
 - For identifying possibility of cooperations among the institutions of WG members, including PhD students exchange, visiting professors
 - For organizing summer schools
 - ...

**29th IFIP/IEEE International Conference on
Very large Scale Integration**
